Dear Tommy:

I would like to take an opportunity to thank those members of the McAbee organization who did such a good job during our "burn-out" starting on February 25.

Your response to our needs was prompt and efficient. Although the job involved many different crafts on the job and in your shop, the job was expedited very smoothly and the project was completed in the shortest time anyone dared to estimate.

Our congratulations to you, James Snipes and the many others who helped in completing the job so promptly.

Yours very truly,

CITADEL CEMENT CORPORATION
