Drawer 1460
Tuscaloosa, Al 35403

Dear Mr. McAbee:

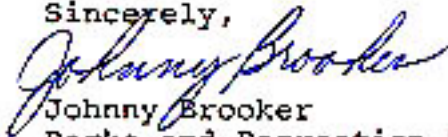

Friday, March 8, a job was done that only McAbee Construction could have handled so easily. Two eighty foot light poles (rotten I might add) at Demopolis High School Baseball Field were taken down with the use of your 80 ton crane. I want to thank you for your use of the equipment. Also, I want to commend your two operators, Herbert Tubbs and Earnie Cook. They did an excellent job in prepping the equipment and making the whole operation move so smoothly. They were also most friendly and kind in cooperating with what we wanted done. They were able to bring down both poles without any damage to the lights.

These poles had been an issue of which most citizens were concerned; especially those who lived below the field. The poles were slightly leaning toward their houses. Both poles were pulled completely out of the ground and we learned that both poles were not set deep enough. One pole was set at a depth of 8'3" and the other was 7'6". More than likely this caused the poles to lean.

We do plan on erecting two new poles as soon as we can.

Again, thank you very much for your help and cooperation. Really, it could not have been done without your equipment. Now, the people here can rest a little easier at night.

Sincerely,

A handwritten signature in blue ink that reads "Johnny Brooker". The signature is written in a cursive style with a large initial "J".

Johnny Brooker
Parks and Recreation Director

Tuscaloosa, AL. 35403

Gentlemen:

On behalf of the City of Demopolis, I want to express our great appreciation for your assistance in removing power poles at the high school ballfield.

This has been a great help to us, and certainly could not have been done without your assistance.

Thank you, again, for this very kind public service.

Sincerely,

Austin Caldwell, Mayor
City of Demopolis
