Dear Harold:

I just wanted to take this opportunity to express my appreciation and satisfaction concerning the work your company performed for us during our recent July shutdown.

The professionalism and experience of your organization was exhibited many times throughout the shutdown by the manner in which your work was planned and supervised. Additionally, your ability to respond to emergency or short notice was truly amazing and that really pulled us through on several jobs.

I am very much looking forward to a continuing business relationship with McAbee Construction.

Thanks!

Yours very truly,

GREAT SOUTHERN PAPER
