Plant Manager

July 18, 1983

Mr. Leroy McAbee  
McAbee Construction, Inc.  
P. O. Box 1429  
Tuscaloosa, Alabama 35401

Dear Leroy:

My compliments to you and your people for the very fine job you did for us last week. The removal of our old chlorination tower and the installation of the new one was an outstanding accomplishment. We were of course very concerned about this job since that is a vital system in our operation. It started up in less than scheduled time without any problems or difficulty.

Our sincerest thanks to Harold Simpson and Harold McAbee. They did their usual outstanding job and we appreciate it very much.

Very truly yours,

*Tom*

Dear Leroy:

This will serve as a continuation of Mr. Tom Snow's letter of July 18, 1983, in that I too would like to add my appreciation for your firm's assisting us in completing a totally successful shutdown. This pertains not only to the new Chlorination Tower, but also to the Spiked Roll installation, the Blow Heat Recovery Modification and all the miscellaneous projects your personnel completed within the allotted times.

Please convey my personal thanks to your two (2) very capable Superintendents, Mr. Wayne Miles and Mr. Larry Casey, and also Mr. Martin Hagler, Mr. Harold (L. C.) Simpson and the other McAbee employees who played a role in these undertakings.

Very truly yours,

  
Russell C. Moye
