Letter No. HMCA-094

Attention: Mr. Leroy McAbee

Dear Mr. McAbee:

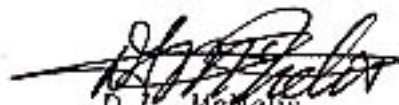

We had a very 'close call' accident on Tuesday, November 3, 1981, involving construction activity on our Delayed Coker Unit. Hunt Oil Company Operators mistakenly identified, to McAbee Construction, a live gas line as a secured air line. Naturally, on penetrating the line with a torch, a fire ensued and people began evacuating the area.

Mr. Lloyd Heaton came to the location and realized that immediate action was essential to prevent injury to personnel or damage to equipment. He personally fashioned and installed a 'fix' which is as good and permanent as any facility we have.

We are commending Mr. Heaton for his quick thinking and decisive action that averted a potentially far more dangerous situation. I am,

Very truly yours,

HUNT OIL COMPANY
