Leroy McAbee
McAbee Construction Co.
Tuscaloosa, Al 35405

Dear Leroy

Just a note of appreciation for the tremendous job your men and equipment did for us on Saturday, March 19, 1990. This area was hit by flooding rains and had put some of our equipment and materials in dangerous positions. Don Tucker, Bill Wilks, Rex Greene, Larry Joe Young, Frankie Singleton, Jr., Willie Benton, Tommy Carter and Paul Smith came to our rescue.

These men went into flooded areas and got out equipment and materials that we probably would have lost or, would have been damaged. They found pumps and pumped out areas that had curtailed operations. These men went beyond what is normally expected out of anyone. I just want to say thanks for giving us a hand.

Sincerely

Bill Trotter
